

PRAB QUENCH CONVEYOR

CONVEYORS STILL OPERATING IN THE FIELD AFTER 57 YEARS

Improve Casting Consistency and Productivity

PRAB Quench Conveyors are excellent for applications where air cooling is not sufficient or practical. Choose from a complete line of liquid-tight conveyors for die cast, heat transfer, parts cooling or coating operations.

"The reason we purchased PRAB's equipment is because it can keep up with production, it is fully automatic, clean, and very user friendly."

– Gary Sroufe, C&A Tool

PRAB Quench Conveyor

System Features:

- In-pit or above floor installation
- Liquid-tight tank
- 2.5" to 6" Pitch Steel Belt Conveyor

Options:

- Liquid-tight tanks available as a separate unit, integral or part of a conveyor
- Available as a steel belt or magnetic conveyor
- Chillers available to conserve water usage
- 4" Pitch steel belt conveyor
- Auto lube system for automatic greasing of bearings

Optional auto lube systems for automatic greasing of bearings. Auto lube systems are designed to automatically supply a small quantity of clean grease or oil to bearings on a regular basis—improving bearing performance and eliminating maintenance required for manual greasing.

A true performance guarantee ensuring your PRAB equipment achieves the specific results it was designed and manufactured to deliver. And if you need technical support, call us. We are available 24/7.
