

PRAB IN-FLOOR TROUGH CONVEYORS

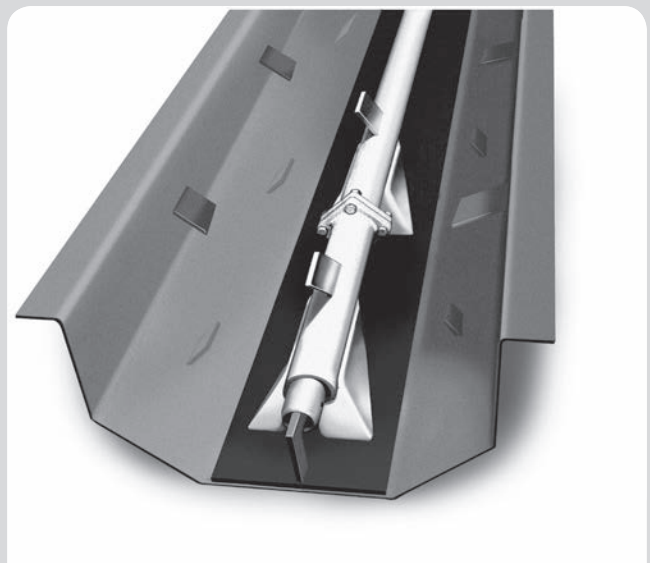

CONVEYORS STILL OPERATING IN THE FIELD AFTER 57 YEARS

Liquid Tight Construction Ideal for High Volume, Coolant Flow Applications

PRAB In-floor Trough Conveyors transfer all types of metal chips, fines and turnings, wet or dry bushy wads and tramp metal solids with time and energy saving efficiency. The liquid-tight trough construction is ideal for high-volume coolant flow applications.

PRAB Harpoon® Conveyor

PRAB Push-Bar™ Conveyor

System Features and Benefits:

- Compatible with bushy turnings, chips, fines and tramp metals
- Liquid-tight construction handles high volumes of cutting fluids
- In-floor installation maximizes available plant floor space
- Low power requirement
- Easy maintenance – one moving part
- Quiet operation
- Prefabricated trough sections from 10' to 20'
- Ram sections available in 10' lengths
- Overall runs up to 500'
- Low installation cost per foot
- Optional safety cover plates
- Height by width combinations range from 16" to 36"

"Our process of disposing metal scrap has become more ergonomic and safer."

—Jack Rovon, Martin-Baker

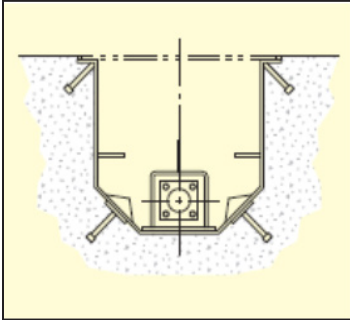

Intersecting Trough Conveyors

Backed by the **PRAB Difference**

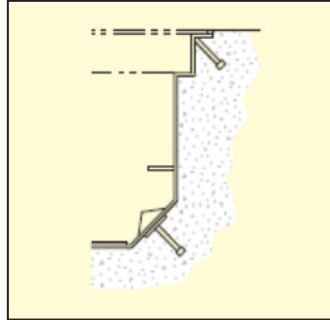

PRAB IN-FLOOR TROUGH CONVEYORS

PROVEN TO RAISE PRODUCTIVITY UP TO 60%

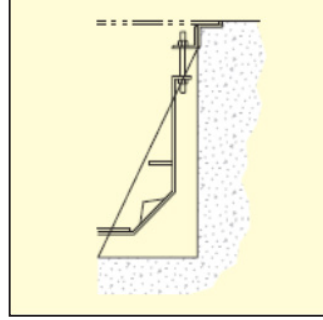

Trough Configurations:

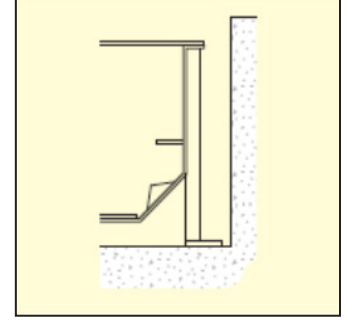

Cast-in-place
standard deck plate

Cast-in-place
heavy-duty deck plate

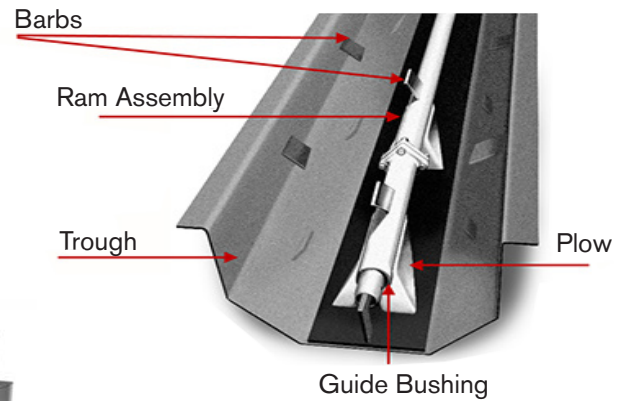

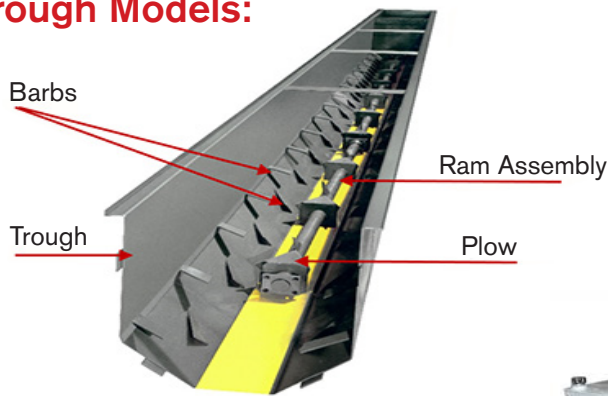

Suspended in pit

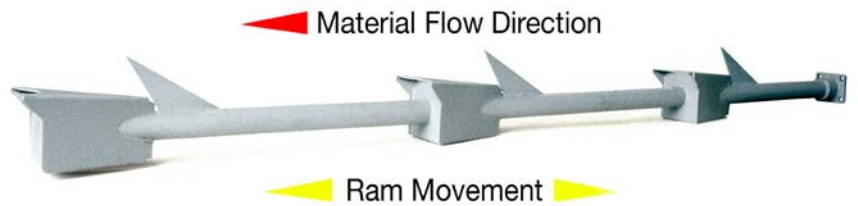

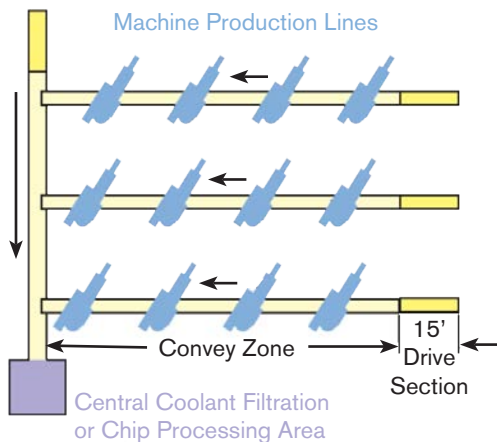

Pit mounted

Trough Models:

Systems include power-pack
